## **along germany's river of pdf**

Rivers that flow into the sea are sorted geographically, along the coast. Rivers that flow into other rivers are sorted by the proximity of their points of confluence to the sea (the lower in the list, the more upstream). Some rivers (e.g. Meuse) do not flow through Germany themselves, but they are mentioned for having German tributaries.

River Main is the result of the confluence of White Main and Red Main. Only a few hundred meters decided about this. Had the White Main its source a little more south, it would flow into the Danube. But, since this is not the case, it goes westwards and joins the Red Main south westerly of Kulmbach, at Schloss Steinhausen.
