Regulatory Impact Analysis for the Proposed Emission

SWOT analysis is an examination of an organization's internal strengths and weaknesses, its opportunities for growth and improvement, and the threats the external environment presents to its survival.

STRATEGIC PLANNING AND SWOT ANALYSIS

would allow the examination of the two models. The results of a path analysis indicated that while both models fit the data, the results for the dangerousness model seemed far more consistent with the data. Their second study was an attempt to manipulate variables in the models. Participants met with either an educational group or a mental patient.
